

Name: _____

Use this worksheet to record your research findings on the characteristics of the monarch butterfly

1. Read the article and fill in the columns; fill in the Causes for Population Decline later in the lesson.
2. In the lines provided below, construct an argument supported by evidence you have researched and recorded in the chart below, that changes to physical or biological components of an ecosystem affect populations.

| RANGE | HABITAT | DIET | LIFECYCLE | BEHAVIOR | CAUSES FOR POPULATION DECLINE |
|-------|---------|------|-----------|----------|-------------------------------|
| | | | | | |
